The word of the day today is:

Danke

The translation is "thank you"

Yesterday news came of a new law put down by the chancellor, Hitler. He advised that this law is for the best of everyone to not hear "false" proclamations by other nations. The law is that it's illegal to have a BBC radio. Some of the consequences if you get caught with one could be jail, or deportation!

Heil Hitler! This is the Fatherlands leader, Adolf Hitler! Hitler is a fearless leader that strides for perfection in Germany. He promises to expand the power of Germany. His rigorous efforts bring success to the beginning of the war.

Achtung!

Recently in the Fatherland the Government has made some changes to the lives of their beloved citizens. The great Nazi party has decided that, for the well-being of their people, a curfew will be put into place effective immediately. All citizens must be inside their homes by eleven (11) pm every night, all who are outside are up for questioning and will be detained for a minimum time period, the maximum penalty being death. All persons who are out after curfew must show identification. Direct from the Furher himself.

The current success of the Jewish situation is ahead of schedule. Current SS officers are predicting that the "rodent should be completely removed by late this month." Currently there are 6 extermination camps that are completely functional and doing their job perfectly. Unfortunately the government is being forced to create small ghettos for Jews. Hopefully the beloved citizens of the great Nazi party understand that these Jews will be in and around their living environment, and they understand that any aid provided to the Jews will be considered as treason and will result in immediate execution. Heil Hitler!

FATHERLAND SURVIVES ANOTHER AIR RAID!

Due to the great invention of the Air Raid siren from our beloved, Hans Ludwig, the Fatherland was protected from the terrible Allie force Britain. The British were no match for our swift actions and our strong defenses. The ceremony for Hans will be held this evening at 6pm. There will be snacks and fantastic selection of Pro-Nazi items. An appearance of the great Hitler himself will be a gift for his beloved people. From now on all citizens should be aware of a whining siren sound that will warn us of the terrible attacks. The usual night-guards will still be in affect and all rules still apply for the nightly curfew. The only difference being an extra warning system that will alert citizens of any immediate attacks.

The Furher wants his people to understand that all Jewish ideology is illegal and all found following or in the presence of the banished items will be deported or face the proper punishments. To all people of Aryan race, the Furher wants to inform that all marriages between Aryans and Non-Aryans are **prohibited** and all found with a conflict in marriage will be punished accordingly.
